Dear Parent/Guardian:

The North Carolina Department of Public Instruction is allowing school systems to operate summer school programs. This letter provides the details of our Cumberland County Schools Remote Summer Program and the opportunity for your child to participate. Our goal is to provide your child work towards proficiency in ELA and Math Skills through practice in the areas of reading, phonics, vocabulary, writing, and math.

Beginning Wednesday July 8th, Cumberland@home Summer Edition learning will provide personalized, blended, and competency-based learning. Your child will navigate a series of lessons at their own pace which includes reading, writing, math, word work, and STEM in a defined learning sequence. Students will strengthen their academic and content-based vocabulary skills and engage in critical thinking through STEM and project-based learning. Each lesson follows the learning structure of "Learn," "Practice," and "Show Evidence." There will also be physical activity, brain breaks, and creativity based activities included for your child. Learning platform activities will be made available through the cumberland@home website at www.ccs.k12.nc.us.

Respectfully,

Tim Gardner

Principal

*Accredited by the Southern Association of Colleges and Schools
And North Carolina State Board of Education*
